

outside

inside

nucleus

A diagram of a cell. A large light green oval represents the cell, with a thick black outline. Inside this oval, on the right side, is a smaller brown oval representing the nucleus, also with a thick black outline. The word "nucleus" is written in black text inside the brown oval. The word "inside" is written in black text at the top center of the green oval. The word "outside" is written in black text at the top left, outside the green oval.
